Present: Peter Berendzen, Kurt Pontasch (Biology); Laura Strauss (Chemistry and Biochemistry); Aleksandar Poleksic (Computer Science); Chad Heinzl (Earth Science); Julie Zhang, Jin Zhu (Industrial Technology); Suzanne Riehl, Nikolay Silkin (Mathematics); Dale Olson (Physics); Jeff Morgan (Science Education)

The senate began discussion with the Biology curriculum packet, for which R. Seager (chair of biology curriculum committee) was present. Adding a 0-credit-hour course (BIOL 1050) was discussed, to which some representatives raised objections. Other discussion included listing of elective courses and widening the scope of electives in other departments. Strauss moved to accept the packet, pending suggested changes. Poleksic seconded the motion. The motion passed with a unanimous vote.

The meeting adjourned at 4:45 p.m.

Respectively submitted,

Jeff Morgan Secretary
