

MARK C. MYERS, Ph.D.

Associate Professor

Department of Biology, University of Northern Iowa
144 McCollum Science Hall, Cedar Falls, IA 50614-0421
mark.myers@uni.edu /319-273-2493

EDUCATION

Ph.D. in Conservation Biology	University of Minnesota, 2002-2005
M.S. in Conservation Biology	University of Minnesota, 1998-2002
A.B. in Biology, <i>summa cum laude</i> with Highest Honors	Kenyon College, 1992-1996
Study abroad in Costa Rica	Associated Colleges of the Midwest, 1995

PROFESSIONAL EXPERIENCE

Associate Professor , Department of Biology, University of Northern Iowa	2012-present
Assistant Professor , Department of Biology, University of Northern Iowa	2006-2012
Instructor , Department of Fisheries, Wildlife, & Conservation Biology, University of Minnesota	2002-2006

AWARDS, FELLOWSHIPS, AND HONORS

2014— U.S. Fulbright Scholar, Antioquia School of Engineering, Medellin, Colombia
2014 — Faculty Summer Fellowship, Provost's Office, University of Northern Iowa
2013— Professional Development Assignment, Provost's Office, University of Northern Iowa
2012 — Faculty Summer Fellowship, Provost's Office, University of Northern Iowa
2011 — Pre-Tenure Summer Fellowship, Provost's Office, University of Northern Iowa
2009 — Faculty Summer Fellowship, Provost's Office, University of Northern Iowa
1998-2005 — MacArthur Scholar, Interdisciplinary Center for the Study of Global Change,
University of Minnesota
2004-2005 — Doctoral Dissertation Fellow, University of Minnesota
2003-2004 — Outstanding Conservation Biology Graduate Student, University of Minnesota
1999-2003 — National Science Foundation Graduate Research Fellow
2001-2002 — University of Minnesota Graduate Fellow
1998-1999 — University of Minnesota Graduate Fellow
1995-1996 — Barry M. Goldwater Science Scholar
1995-1996 — National Council on Undergraduate Research SURE Fellowship
1992-1996 — Kenyon College Presidential Honors Scholar

TEACHING EXPERIENCE

Assistant/Associate Professor, Department of Biology, University of Northern Iowa, 2006-present
Instructor, Department of Fisheries, Wildlife, & Conservation Biology, University of Minnesota, 2002-2006
Teaching Assistant, Department of Biology, Kenyon College, 1994-1996

Courses taught:

<i>Ecology, Evolution, & the Nature of Science</i>	<i>Conservation Biology</i>	<i>Ecology</i>
<i>Biodiversity Conservation Policy</i>	<i>Wildlife Ecology & Management</i>	<i>Organismal Diversity Laboratory</i>

RESEARCH EXPERIENCE

- 2017-present — *Conservation Reserve Program Pollinator Habitat (CP-42) Evaluation on Iowa Farms*
- 2008-2015 — *Assessing the wildlife habitat value of diverse biomass energy prairie plantings in an agricultural landscape*
- 1995-2006 — *Fish response to protected area designation in the Tropical Eastern Pacific*
- 2002-2005 — *Endangered Wildlife Conservation in the Neotropics: Lessons and Strategies from Costa Rica*
(Ph.D. dissertation research)
- 1998-2002 — *Baird's Tapir (Tapirus bairdii) Conservation in the Osa Peninsula, Costa Rica: Lessons from the Natural and Policymaking Environments* (Master's thesis research)
- 2001 & 2004 — Field Researcher, Isle Royale National Park. Collected vegetation data for a long-term ecological research effort assessing the effects of moose (*Alces alces*) browsing on forest succession
- 2001 — Field Researcher, McMurdo Station, Antarctica. Conducted population surveys as part of a long-term ecological research project monitoring Weddell seal (*Leptonychotes weddelli*) population dynamics
- 1996-1997 — Field Biologist, Corcovado National Park, Costa Rica. Captured, collared, and radio-tracked wild tapirs (*Tapirus bairdii*) with Baird's Tapir Research Project
- 1996-1997 — Field Biologist, Carara Biological Reserve, Costa Rica. Coordinated ecological research and community outreach programs aimed at conserving scarlet macaws (*Ara macao*) in central Pacific Costa Rica
- 1995-1996 — *Genetic responses of small stream fishes to landscape variation* (Undergraduate Honor's Thesis in Biology)

GRANTS FUNDED

Evaluation of the Conservation Reserve Program Pollinator Habitat conservation practice (CP-42) on central Iowa farms. Iowa Science Foundation, 2019-2021, (\$5000)

Assessing the Wildlife Habitat Value of Diverse Prairie Plantings Managed as Agroenergy Crops in an Agricultural Landscape, UNI OSP, Student-Faculty Collaboration Grant, 2014, (\$3,500)
Prairie Power Project: determining maximum sustainable production of biomass with a mixture of prairie species (with Dr. Daryl Smith, Tallgrass Prairie Center). Iowa Power Fund, 2008-2011 (Phase I) & 2012-2015 (Phase II), (\$1,049,000)
Butterfly response to floral resources at a heterogeneous prairie biomass production site. Iowa Science Foundation, 2010-2012, (\$4690)
Dayton and Wilkie Funds for Natural History Research Award. University of Minnesota, 1999-2003, (Five grants totaling \$4500)
MacArthur Pre-Dissertation Travel Award. University of Minnesota, 2000, (\$2,000)
International Travel Grant. National Science Foundation, 2000, (\$2,000)

STUDENT MENTORING

Undergraduate student research advisor

Bella Araiza, Summer Undergraduate Research Program, University of Northern Iowa (2020)
Project title: *Assessing the effectiveness of radio telemetry in tracking Bombus auricomus in a central Iowa restored prairie*

Emma Simpson, Summer Undergraduate Research Program, University of Northern Iowa (2019)
Project title: *Local and landscape effects on butterfly abundance in CP-42 plantings*

Ethan Marburger. Summer Undergraduate Research Program, University of Northern Iowa (2018)
Project title: *Floral resource availability and butterfly community characteristics in CP-42 Pollinator Habitat plantings*

Chandler Dolan. Summer Undergraduate Research Program, University of Northern Iowa (2017)
Project title: *Bee and butterfly response to floral resources in central Iowa prairie restorations.*

Kate Madsen. Summer Undergraduate Research Program, University of Northern Iowa (2017)
Project title: *Bee and butterfly response to floral resources in central Iowa prairie restorations.*

Corinne Myers. Summer Undergraduate Research Program, University of Northern Iowa (2016)
Project title: *Common milkweed (Acelpias syriaca) plant characteristics in in perennial prairie plots of varying diversity.*

Griffin Geick. Summer Undergraduate Research Program, University of Northern Iowa (2016)
Project title: *Common milkweed (Acelpias syriaca) density in perennial prairie plots of varying diversity.*

Daniel Pimentel Fernandez de Sousa. Summer Undergraduate Research Program, University of Northern Iowa (2016) Project title: *Bird microhabitat selection in an experimental, heterogeneous (soil, diversity) prairie restoration.*

Libby Torresani. Summer Undergraduate Research Program, University of Northern Iowa (2014)
Project title: *Grassland bird nest survival in perennial agroenergy crops.*

Stephanie Paape. Summer Undergraduate Research Program, University of Northern Iowa (2014)
Project title: *Ground arthropod abundance in switchgrass and diverse prairie agroenergy crops.*

Andrew Ridgway. Summer Undergraduate Research Program, University of Northern Iowa (2013-2014)
Project title: *Effects of flooding on the flora and fauna of a reconstructed tallgrass prairie.*

Nick Tebockhorst. Summer Undergraduate Research Program, University of Northern Iowa (2012)
Project title: *Butterfly response to floral resources in a heterogeneous prairie biomass production site.*

Drew Miller. Summer Undergraduate Research Program, University of Northern Iowa (2011)
Project title: *Butterfly and plant community characteristics following fire management at a prairie biofuel production site.*

Ben Hoksch. Summer Undergraduate Research Program, University of Northern Iowa (2010-2011)
Project title: *Butterfly response to floral resources in a heterogeneous prairie biomass production site.*

Sarah Faust. Work study student and research volunteer, University of Northern Iowa (2008-2009)
Project title: *Fish response to protected area designation in the Tropical Eastern Pacific*

Mandy Larson, University Honor's Thesis, University of Northern Iowa (2007-2009)
Project title: *Assessing the potential habitat value of biomass production fields for grassland birds*

Graduate student advisor / thesis committee chair

Corinne Myers. M.S. in Biology, University of Northern Iowa (2018-present)
Thesis title: *Evaluation of the Conservation Reserve Program Pollinator Habitat conservation practice (CP-42) on central Iowa farms*

Alec Glidden. M.S. in Biology, University of Northern Iowa (2019-2021)
Thesis title: *Seed mix design, planting time, and first-year mowing management to improve multifunctionality and cost-effectiveness of tallgrass prairie constructions.*

Christina Boeck-Crew. M.S. in Biology, University of Northern Iowa (2018-2019)
Thesis title: *The effect of cold stratification and perigynia removal on the germination of three prairie Carex species.*

Chris Barber. M.S. in Biology, University of Northern Iowa (2009-2018)
Thesis title: *The effects of mycorrhizal inoculant and micronutrients on early plant establishment during a tallgrass prairie reconstruction.*

Ben Hoksch. M.S. in Biology, University of Northern Iowa (2013-2015)
Thesis title: *Butterfly and floral community dynamics at a native prairie biofuel research site.*

Jarrett Pfrimmer. M.S. in Biology, University of Northern Iowa (2011-2013)
Thesis title: *Bird use of heterogeneous native prairie biofuel production plots.*

James Mason. M.S. in Biology, University of Northern Iowa (2008-2012)
Thesis title: *Early avian colonization in a prairie biofuel project.*

Graduate student committee member

Jon Luiken, M.S. student advised by Dr. Peter Berendzen (2018-2021),
Thesis title: *Influence of landscape on the population genetics of the rainbow darter (Etheostoma caeruleum) in glaciated and unglaciated environments.*

Destiny Magee, M.S. student advised by Dr. Kenneth Elgersma (2017-2020),
Thesis title: *Carbon sequestration and weedy invasion in CRP fields.*

Zach Hall, M.S. student advised by Dr. Jeff Tamplin (2017-present)
Thesis title: *Range and microhabitat selection preferences in the wood turtle (Glyptemys insculpta)*

Josh Otten, M.S. student advised by Dr. Jeff Tamplin (2015-2018)
Thesis title: *Factors influencing wood turtle (Glyptemys insculpta) home range size in Iowa: a comparison between suburban and rural populations.*

Emily Francis, Geography M.S. student advised by Dr. Andrey Petrov (2013-2016)

Thesis title: *Analyzing winter activities of wild Taimyr reindeer using Argos satellite collars*

Jordan Young, M.S. student advised by Dr. Kenneth Elgersma (2013-2015)

Thesis title: *Effects of soil type and plant diversity on soil respiration and litter decomposition in a tallgrass prairie biofuel production system*

Ryan Neuhaus. M.S. student advised by Dr. Daryl Smith (2009-2015)

Thesis title: *A comparison of the effects of burning, haying, and mowing as management techniques on plant and animal species in a prairie reconstruction*

Ryan Kurtz. M.S. student advised by Dr. Peter Berendzen (2011-2015)

Thesis title: *Establishing demographic parameters and conservation units of the black redhorse, Moxostoma duquesni, in northeast Iowa*

Brigid Wiemann. M.S. student advised by Dr. Peter Berendzen (2011-2015)

Thesis title: *Establishing demographic parameters and conservation units of the longnose dace, Rhinichthys cataractae, in northeast Iowa*

Carmen Pellish, M.S. student advised by Dr. Laura Jackson (2012-2014)

Thesis title: *Tracking above- and below-ground seed persistence and mortality in a native prairie restoration.*

Jessica Williams. M.S. student advised by Dr. Jeff Tamplin (2011-2013)

Thesis title: *Wood turtle, Glyptemys insculpta, microhabitat use, movement, and thermal behavior in Beaver Creek Falls Access Area, Black Hawk County, Iowa*

Kaitlyn Anderson M.S. student advised by Dr. Jeff Tamplin (2012-present)

Thesis title: *Effect of acclimation temperature and substrate type on the selected temperature of juvenile Apalone spinifera, the spiny softshell turtle*

Molly Schlumbohm. M.S. student advised by Dr. Daryl Smith (2010-present)

Thesis title: *The effect of tallgrass prairie species composition on above ground biomass production*

Anna Abney. M.S. student advised by Dr. Daryl Smith (2010-present)

Thesis title: *Effect of burn timing on select insect groups in early stage of a reconstructed tallgrass prairie*
