

SCI ED 5186

Introduction to High School OpenSciEd Workshop

Interested in implementing OpenSciEd in your classroom?

Join us on April 13 for an engaging, face-to-face OpenSciEd course on the UNI campus. Led by national and state OpenSciEd certified trainers, you'll learn the instructional routines of OpenSciEd and explore available instructional units, while networking with the trainers, UNI faculty, and fellow science educators.

This workshop will be offered on Saturday, April 13, 2024 from 9 a.m. - 3 p.m.

Participating teachers may earn one unit of graduate credit

The University of Northern Iowa Science Education in collaboration with Activate Learning and Central Rivers Area Education Agency (AEA) is offering a Saturday 2024 High School OpenSciEd Course on the UNI campus.

» REGISTRATION

To register for the course, complete the application at bit.ly/SCI-ED-5186.

The single-day, grade level course is limited to 32 participants. Open to all State of Iowa High School educators.

Applications will be accepted through March 15, 2024, or until filled.

Introduction to High School OpenSciEd Workshop

SCI ED 5186

Course Details:

- / This course is intended for high school science teachers who are interested in learning more about the high school OpenSciEd instructional materials in biology, earth and space science, chemistry, and physics.
- / The high school OpenSciEd instructional materials for biology, chemistry, and physics include earth and space science standards integrated throughout each science subject.
- / Courses will be available during Summer 2024 in High School OpenSciEd for each science subject of biology, chemistry, and physics that will provide opportunities for teachers to learn more.
- / The Saturday course will be a one day, face-to-face learning session that engages participants in the instructional routines of high school OpenSciEd and the exploration of a high school exemplar instructional unit.
- / The course will be facilitated by national and state OpenSciEd certified trainers.
- / Participants will be able to network with the trainers, UNI Science Education faculty, and fellow teachers throughout the day and during lunch.
- / The course will take place in McCollum Science Hall, Room 112, on the University of Northern Iowa campus. To view the campus map, visit uni.edu/campusmap.

Workshop Cost & Credit:

There is no cost to participate in this course. All participants will be provided a \$50 stipend.

If interested, participating teachers may earn one hour of UNI Science Education graduate credit at a cost of \$100 which requires participating in the full-day of the course and completing webinars, discussion posts, etc.

Lunch and refreshments will be provided during breaks throughout the day.

To register for graduate credit:

- / Complete the course application at bit.ly/SCI-ED-5186.
- / Submit an Online & Distance Education enrollment form at online.uni.edu/enroll. Search for course number **#50854**.
